

Members of the Council of Fifty, 1844–1846

The following chart provides a visual representation of membership in the Council of Fifty for the Nauvoo, Illinois, period, covering March 1844 through January 1846. (Council meetings resumed later in Winter Quarters and in Utah Territory, but information about later membership is not given in the chart.) The dates in parentheses following each name, which are given in month/day/year format, indicate when an individual was formally admitted to the council; for those who died or were rejected from the council before the end of the Nauvoo phase, a concluding date is also given (boldface type on the concluding date indicates death; italic type indicates rejection from the council). An asterisk indicates that the individual was admitted as a substitute or replacement member of the council. For more information on each individual listed, consult the Biographical Directory herein.
